**STATEMENT IN SUPPORT OF SUBMISSION IN ACCORDANCE WITH
37 C.F.R. § 1.821 and 1.825**

I hereby state that to the best of my knowledge the nucleic acid sequence information recorded in the substitute copy of the computer readable form, submitted in accordance with 37 C.F.R. 1.825(b), is identical to that originally filed, and to the nucleic acid sequence information provided in the patent specification relating to the above referenced application.
